289— 342 .....	9 (September)
343— 394 .....	10–11 (October–November)
395— 450 .....	12 (December)

## Key words index

**A**

AAI/R pacing 187  
 abdominal aortic aneurysm 180  
 ablation 181  
 ace inhibitors 177  
 acid sphingomyelinase deficiency 339  
 acidemia patients 331  
 acoustic densitometry 174  
 acute coronary syndrome 137, 138, 161, 165, 186, 193  
 – hemodynamic test 163  
 – myocardial infarction 131, 148, 157, 178, 185, 189  
 – renal failure 345  
 – thrombocytopenia 185  
 – toxic neuropathy 91  
 – type A dissection 186  
 adult patients 136  
 adulthood 333  
 aerosol 65  
 achalasia 101  
 AIDS 241  
 airway 203  
 Alzheimer's disease 225  
 amiodarone 159  
 amniocentesis 310  
 anaemia 419  
 anal fissure 30  
 – spasm 30  
 anatomic measurement 428  
 anatomical terminology 22  
 Andersen disease 329  
 anesthesia 51, 384  
 angina-like chest pain 191  
 angiographic predictors 151  
 angiography 148, 174, 189  
 angioplasty 143, 148, 168  
 anodal stimulation 141  
 anomalous location 194  
 anovulation 207  
 anterior abdominal walls 37  
 antiarrhythmic drugs 14

– therapy 140  
 antibiotics 374  
 anticardiovascular disease 225  
 anti-inflammatory drugs 3  
 antioxidant enzymes 45  
 antioxidants 277  
 antitussive effect 203  
 antracardiac masses 173  
 APOE gene 168  
 apoptosis 154, 225, 359  
 arrhythmia 14, 181  
 – in children 150  
 arteficial ventilation 14  
 arterial ATP-sensitive K-channel 147  
 arteries 22  
 artery 3  
 ascariasis 117  
 atherosclerosis 174  
 atorvastatin 131  
 atrial fibrillation 130, 133, 145  
 – septal defect 136  
 – signal 188  
 autologous transplantation 157  
 autonomic dysfunction 108, 172  
 – nervous system 108, 167, 404  
 AV delay 170  
 – nodal reentry tachycardia 181

**B**

bail-out stenting 157  
 benign form of opposite sinus 194  
 beta-myosin 182  
 beta-blockers 195  
 biochemical changes 91  
 – parameters 18  
 biopsies 270  
 biventricular pacing 169, 170, 192, 193  
 bleomycin 65  
 blood flow 384  
 – platelets 250  
 – pressure 72, 154, 174, 397  
 – prostaglandins 404

– spot variability 337  
 BNP changes 163  
 body mass index 130, 397  
 bone marrow cells 157  
 brachial artery 146  
 – intima-media thickness 146  
 – plexus 424  
 brain 179  
 – ischemia 353  
 brainstem structures 8  
 branching enzyme deficiency 329  
 bypass graft surgery 140  
 – grafting 45

**C**

C677T polymorphism 336  
 Ca in situ 365  
 calcitriol 211  
 calcium 211  
 – channel 203  
 carcinoma 215  
 – hypertrophy 147  
 – malignancy 178  
 – MRI 245  
 – myocyte 154  
 – natriuretic peptides 149  
 – pacing 170  
 – rehabilitation 141  
 – surgery 45  
 cardiogenic shock 151, 185  
 cardiological service 136  
 cardiologist 177  
 cardiomyopathy 150, 159, 164, 196  
 cardiopulmonary bypass 45  
 cardiovascular events 146  
 – reflex tests 404  
 – risk factors 256  
 catheter 172  
 cauterization 30  
 central airways stenoses 264  
 – conduction time 400  
 cervical premalignant lesions 365

- chemiluminescence 250  
chemoprevention 215  
chemoradiotherapy 11  
child abnormalities 123  
children 117, 150, 169, 170  
cholesterol 397  
cholesterolemia 335  
chorionic villus sampling 310  
chromatography 14  
chronic heart failure 132, 133, 134, 154, 164, 186, 195, 419  
chronically anovulating women 207  
circadian index 72  
circulatory system 153  
cirrhotic patients 18  
citric acid cough 65  
citrin deficiency 328, 333  
clear angiographical evidence 180  
cleft lip 104  
– lip 379  
– palate 104, 379  
clinical parameters 179  
collective memory 391  
colonoscopy 387  
color Doppler flow imaging 137  
colorectal carcinoma 11, 215, 389  
common 30  
– femoral artery 166  
community hospital 193  
complex therapy 389  
condylomata 270  
congenital heart disease 136, 152  
congestive cardiomyopathy 150, 169  
congestive heart failure 141, 175, 419  
conscious patient 51  
conservative treatment 30  
consumption of drugs 123  
conventional procedure 270  
coronarographic findings 186  
coronary artery 45, 138, 174  
– – disease 56, 131, 158, 161  
– – smooth muscle 148  
– – stenosis 157  
– atherosclerosis 140, 180  
– bypass surgery 158  
– reserve predicts mortality 161  
– flow velocity reserve 172  
– heart disease 180  
– lesion 56  
– ostium 194  
– revascularization 161  
cost-effectiveness analysis 374  
cough 203  
– reflex 65  
coxsackie infection 225  
C-reactive protein 132  
creatinine clearance 397  
– kinase 260  
critic limb ischemia 181  
Crohn's disease 86  
cystic cerebellar hemangioblastoma 8  
cytosolic NADH 333
- D**  
day care procedures 270  
deendothelisation 3  
defence cough reflex 203  
delivery 189  
denervated heart 145  
diabetes mellitus 56, 101, 131, 400, 404  
diabetic nephropathy 432  
– sulphonylurea 148  
dialysis 156  
didactic means 125  
diet 327  
dietary supplementation 277  
– treatment 291  
different noninvasive stress 56  
dilated cardiomyopathy 182  
diltiazem 203  
disease models 125  
– of circulatory system 153  
disseminated intravascular coagulation 18  
diverticles 86  
dobutamine 174  
domestic animals 414  
donor serum 177  
Doppler echocardiography 191, 192  
– flow imaging 137  
double opposing Z-plasty 104  
drug use 123  
duplex color flow imaging 142  
dysphagia 101  
dysplasia 365  
dystrophin gene 182
- E**  
ear arteries 3  
early ST segment resolution 178  
education 25, 125, 281, 392  
echocardiographic detection 173  
– evaluation 139  
echocardiography 78, 174, 191, 192  
ejection fraction 365  
elderly patient 158, 374  
electroanatomical mapping 172  
electrophysiology 190  
electrospray ionization 339  
employees 117  
endocrine metabolic disease 101  
endoprosthesis 264  
endoscopic cure 8  
– examination 387  
endothelial function 146  
Enterobius vermicularis 117  
enzyme assay 310  
enzymes and TOCP 91  
eosinophil 359  
– activation 359  
eosinophilia 359  
epidemy 117  
epidural anesthesia 51  
– space blockage 51  
epimerase deficiency 303  
eptifibatide 185  
erythropoietin 419  
esophageal dysfunction 101  
– motility 101  
esophago-cardiac reflex 191  
etiologic agent 365  
European Observatory on Health Systems 403  
exercise ECG 56  
exposure to oxygen 65  
external piles 270  
extravascular lung water 155
- F**  
Fabry disease 164, 329, 339  
facultative screening 291  
familial CRC 215  
family 117  
fast track method 51  
fate of patients 193  
fatty acid oxidation defects 323  
– – – deficiencies 329  
fibrillation 130  
fibrous polyps 270  
fissure in ano 30, 270  
fistula in ano 270  
food 414  
free L-carnitine 334  
functional impairment 108  
Furlow double epidural anesthesia 104  
– palatoplasty 104  
furosemide 345
- G**  
galactose-1-phosphate uridyl-transferase 318  
galactosemia 303, 315, 322

- gamma glutamyltransferase 260  
gastric lavage 14  
gastrointestinal bleeding 141  
– tract 387  
gender differences 186  
gene mutations 182  
general practitioners 162, 177  
genetic counseling 215  
genetics 299  
genotype correlation 332, 338  
genotyping patients 323  
giant mycotic aneurysm 166  
giardiasis 117  
glibenclamide 143  
glimepiride 143  
globotriaosylceramide 339  
glucose tolerance 353  
– transporter 147  
glutamate 326  
glutamine 326  
glycolysis 147  
Guinea pigs 65  
Gypsy population 256
- H**  
harvesting injury 62  
healthcare 125  
– systems 403  
health-related quality 195  
healthy children 318  
heart disease 56, 329  
heart failure 141, 145, 162, 163, 164, 195, 419  
– rate turbulence 160  
– – turbulence 190  
– – variability 404  
– transplantation 177, 178, 191  
heavy chain gene mutations 182  
hemangioblastoma 8  
heme oxygenase-1 143  
hemodialysis 365  
hemodialysis 365  
hemorrhage 235  
hemorrhoids 270  
hemostatic parameters 139  
heterogeneity 329  
high blood pressure 154  
histology 62
