Key words index

3-D mapping 23
 3-hydroxy-3-methylglutaryl-coenzyme A reductase 388
 3rd degree atrioventricular block 39
 8-mm vs cooled tip catheter 37

A

ablation 23
 – of atrial fibrillation 28
 abnormal low voltage areas 40
 abnormalitiea 468
 abortifacients 163
 abortion 163
 acetylsalicylic acid 7
 actinomycosis 364
 activity 212
 acute effect on ventricular dyssynchrony 33
 adenosine 259
 adernoleukodystrophy protein 463
 adjuvant treatment 100
 adrenoleukodystrophy 463
 adrenomyeloneuropathy 463
 adult patient 371
 adverse drug reaction 348
 aging 212
 alanine aminotransferase 522
 Althaea officinalis 93
 aminotransferase 522
 amiodaron 22
 amiodaron-induced thyreotoxicosis 22
 analgesia 184, 359
 analysis of the cost of therapy 22
 anastomosis Roux-en-Y 475
 anatomy 533
 anesthesia 335
 angina pectoris 33
 ankle-brachial index 89
 anomaly 104, 422
 anterior myocardial infarction 49
 anthropometric parameters 481
 antiarrhythmic agents 48
 antibody 65

anti-HBc-seropositivity 65
 antioxidants 385, 489
 antioxidative enzymes 56
 antiplatelet agents 7
 anti-stress procedures 189
 antitussive ectivity 93
 aortic valve annulus 437
 aortofemoral reconstruction 312
 apolipoprotein 179
 apple 382
 Arctium lappa 93
 arginine 283
 aromatase inhibitors 271
 arrhythmia 14, 29, 40
 arrhythmic storm 44
 arterial hypertension 301
 artery 14
 ascites 158
 aspartate aminotransferase 522
 aspirin 7
 – resistance 7
 asymmetric influence of autonomic nervous system 26
 ATC classification 348
 atherosclerosis 89, 179, 417
 atrial fibrillation 22, 23, 27, 28, 31, 37, 43, 45, 52
 – – complication 50
 – – detecting 31
 – physiological correction 14
 – septal defect sinus venosus type 14
 atrioventricular nodes 26
 atypical cysts 475
 auricular pseudocyst 471
 autoimmune disease 227

B

baroreflex sensitivity test 41
 B-cell 459
 benign liver tumor 229
 B-group vitamin 510
 bio-antiglaucomatic 283

biological markers 170
 bipolar radiofrequency ablation 27
 birth control 163
 biventricular pacing 21, 35, 446
 bleeding 223
 body mass index 207
 Bologna declaration 375
 bone 141
 Borrelia burgdorferi 399
 bradykinin 174
 brain 422, 529
 – injury 329
 – natriuretic peptide 170
 breast cancer 100, 271
 bronchopneumonia 246
 bronchoscopy 364
 burn injury 359

C

Caesarean section 526
 cancer 218, 246, 292
 – mortality 478
 carbon monoxide 255
 cardiac arrhythmia 46
 – centre 34
 – events 301
 – pacing 41
 – resynchronization pacing 48
 – resynchronization therapy 29, 41, 446
 – surgery 3, 501
 cardiopulmonary bypass 501
 cardiorenal syndrome 169
 cardiovascular disease 7, 403, 417
 – mortality 478
 – risk 246
 catalase 56
 catheter ablation 24, 26, 32, 37, 38, 43, 44
 – mesh mapper 50
 Caucasian primary school pupils 481
 cavity cancer 292
 cavo-tricuspid isthmus 32
 CD21 368

- CD35 368
cerebral palsy 406
– stimuli 529
chemoprevention 271
chemotherapy 218
child 3, 184, 200, 359, 437, 501
Chlamydia myocarditis 50
cholesterol 297, 388
chronic atrial fibrillation 23, 24, 38
– heart failure 21
– hepatitis C 522
– hepatitis C 65
– myeloid leukemia 433
– obstructive pulmonary disease 83, 255
– renal failure 506
– vitamin C deficiency 417
chylothorax 3
cigarette smoking 255
clinical practice 481
clofibrate 56
coeliac disease 519
colon cancer 354
colonoscopy 443
color duplex sonography 89
colorectal cancer 246, 443
computed tomography 414
congenital choledochal cyst 475
– heart defect 29, 316
– – disease 29, 170, 454
congenitally corrected transposition 14
congestive failure 170
conjunctival nevus 287
conservative treatment 409
consonants 112
contraception 163
contraceptives 163
contractile response 174
contribution of transthoracic impedance
cardiography 39
coronary artery disease 297, 301
cough 489
craniofacial parameters 481
C-reactive protein 501
criteria of rectal ca 149
critic acid-induced coigh 489
Crohn disease 307
CRT 29
cryoenergy catheter ablation 35
cytogenetic analysis 433
cytokines 128
- D**
D-amino acid 56
damped sine wave 30
death 239
defibrillator 47, 48
dendritic cell sarcoma 368
dermatitis herpetiformis 519
detoxification 393
diabetes 297
diagnostic criteria 481
diet 265
different methods of atrial fibrillation
ablation 31
– types of heart rhythm disorders 25
– – – ventricular arrhythmias 49
digital photography techniques 533
diphthongs 112
documented arrhythmia 43
dolichoectasia 456
Down syndrome 70
Drug Information Center 348
drug interactions 348
Druginfo 348
D-transposition 14

 hemoptysis 364
 hemorrhoids 223
 hepatitis B 65
 hepatitis C 522
 HER 2 100
 hernia repair 335
 heroin addiction 393
 high density lipoprotein 297
 hip 251
 – instability 406
 HLA typing 519
 homeostasis 393
 homocysteine 510
 hospitalist 117
 human myometrium 174
 – small bowel 516
 hydrogen peroxidase 56
 hydrothorax 158
 hypercholesterolemia 417
 hyperoxia 489
 hypertension 32
 hypofibrinolysis 279
 hypoketotonic hypoglycemia 75
 hypoplastic heart syndrome 14
 – left heart syndrome 203

I

iatrogenic damage 269
 ICD implantation in children
 idiopathic ventricular ectopic beats 48
 IgG antibodies 506
 ileum 516
 immune system 144
 – – disorders 320
 immunofluorescence 399
 immunohistochemistry 368
 immunohistopathology 459
 immunology 3

impact of completeness of revascularization 40
 implantable cardioverter 47
 – – defibrillator 27
 implantation LV pacing leads 41
 inborn errors 75
 inclination angles 481
 incontinence 189
 indication of rectal ca 149
 infection 320, 506
 – of the implanted PM/ICD 34
 inflammation 255, 307
 inflammatory response 335
 infrared coagulation 223
 inguinal hernia 335
 inhaled corticosteroids 83
